What is a Remote Activated Mixer – RAM?

Remote Activated Mixer – RAM

This system allows the operator to remotely engage the truck mounted mixer while simultaneously loading feed ingredients.

*PATENT PENDING

What are the benefits of a RAM?

- Remote start/stop mixers on trucks
- Reduce fuel consumption & mixer wear by running only when necessary
- Programmable mixing times – 0-30 minutes with 3 time presets
- Install on new or upgrade old
- Will work on truck mounted mixers of all types
- 9% less fuel/hour possible savings – individual results will vary

Only Available at

What do I need to get a RAM?

- Truck mounted feed mixer
- Chassis with an electronic controlled engine
- PTO mixer drive with an automatic transmission or hydrostatic mixer drive

The RAM system will work on all
types of truck mounted feed mixers
